# Summer Events Continued to Draw Crowds

*By Monte Weber  
President,  
Terwillegar Community  
League*

As summer comes to a close I hope that everyone got to partake in one of the many events we hosted over the last two months. It has been a very busy summer.

We started the summer with our annual Canada Day celebration, and as everyone knows was a little extra special this year with it being Canada's 150th birthday. Check out some of the photos from the event on page 18.

Our next big event was the Summer Carnival, which

was by far the largest carnival we have hosted to date.

There was the addition of a number of attractions this year, and it continues to grow with more and more local businesses supporting the event. In addition to being a great time, the carnival was able to raise over \$7k for the development of the South Terwillegar Park. Some event photos are included on page 14.

Through the summer we also hosted numerous outdoor movie nights, with August ending with the Guardians of the Galaxy Vol 2. A number of community members also stepped forward to

host a block bbq with their neighbors, with TCL contributing some funds to cover the costs of the food.

To top it all off, Famoso hosted two days in which all of their proceeds were donated to Terwillegar Community League to support the building of an ice rink at South Terwillegar Park. So we all got to have some great food, avoid doing some dishes, and support the community at the same time. A true win-win if you ask me.

If that was not enough, the construction of the Nellie Carlson playground began in early August with anticipated grand

opening date sometime in early October.

This marks the fifth project built by the league in the last 6 years with a total cost of over 2.5 million. Congratulations and thank you to everyone who helped to make this possible; our entire community benefits from these efforts!

## Back to school safety

Alberta Health Services EMS would like to remind parents and students about some road safety tips, as streets become more congested, with the return of the school year. Pedestrians and motorists both have an important role to play – road safety is a shared responsibility.

### Motorists

- Avoid talking on cell phones, texting, or any other behavior that diverts your attention away from driving;
- Give right-of-way to pedestrians who have activated overhead crossing lights, or who are waiting to cross from a street corner;
- Remember, it is illegal to pass vehicles - other than those that are parked - in school zones or playground zones, during posted hours.

### Around school buses

- Flashing amber lights mean a bus is slowing down to stop – motorists should do likewise;
- No matter which direction you are coming from, STOP, when approaching a school bus with activated flashing red lights – unless the bus is on the opposite side of a divided highway from you;
- Driver courtesy goes a long way. By simply being alert and cautious when approaching a school bus, you are contributing to school bus safety.

### Pedestrians

- Cross only at marked crosswalks, or street corners that have clear visibility from all directions;
- Make eye contact with all drivers before crossing the street, and keep distractions to a minimum;
- When activating overhead crossing lights, pause before stepping off the curb to ensure motorists in both directions have come to a complete stop;
- Stay within the crosswalk lines until fully clear of the roadway;
- Obey pedestrian lights at intersections. Cross the street only when you see the 'walk' sign and only when all cars have come to a complete stop;
- If you are with young children or pets, hold your child's hand firmly and keep a solid grip on leashes when crossing;
- Remember: children learn by observing. By demonstrating safe crossing habits, you can reduce the chances of your child being involved in a preventable auto/pedestrian collision.

of the issues that will be coming before the House of Commons in the Fall. Many of you have written to me and called me, and I appreciate your feedback and encourage you to keep in contact with me and my office about the issues that are important to you.

Recently, I had the privilege to meet with some of the youth in our community who are recipients of our MP Youth Leadership Award. These young leaders have positively and meaningfully impacted the community of Edmonton-Riverbend, and I was pleased to receive their nominations and learn about the wonderful work so many of our youth are doing. I am excited that I will again be offering these awards during the next school year.

In honour of Canada's 150th anniversary, I would also

These awards are about recognizing the important contributions to our community made by individuals, not-for-profit organizations and businesses throughout Edmonton Riverbend. Nominations will be accepted from May 1, 2017 to September 1, 2017. COMMUNITY ENGAGEMENT

Have you ever felt like City Hall is telling you what your neighbourhood should look like, rather than asking you? I have an extensive track record of bringing people together so that their voices are heard.

IMPROVING TRANSPORTATION & TRANSIT

We've all experienced it; stuck in traffic to and from work. I'll be your voice on City Council and I will fight to ensure that transportation and transit infrastructure are effective.

RESPONSIBLE DEVELOPMENT & TAXATION

I will advocate for democratic and responsible development policies and practices in Edmonton's neighbourhoods. I will make sure that your hard-earned tax dollars are spent wisely.

HEALTHY COMMUNITIES

Every healthy community is made up of four elements: home, school, recreation and assembly. It was this idea that led me to found the Terwillegar Riverbend Advisory Council, the catalytic force behind building the Terwillegar Community Recreation Centre.

CARING FOR PEOPLE

No city can be great unless everyone is cared for and included. Let's grow a city in which everyone has a place at the table: families, seniors, homeowners, students and newcomers.

## Southwest Edmonton Farmers' Market (SWEFM) - Market Updates

By Christie Anderson,  
SWEFM Market Manager

The 2017 season of the SWEFM is in full swing. We had a cool & windy start, but summer finally arrived and the market has been bustling with happy patrons, vendors, volunteers, and buskers, all glad to enjoy being outdoors on an Edmonton summer day.

We at the SWEFM make a real effort to bring our supporters the best variety of market produce and goods. While the gorgeous fruit and veggies are the stars of the show (who can resist plump Rainier cherries, bushels of garden carrots, beautiful squash, and the juiciest berries you'll ever see?), we also have a huge variety of prepared foods. This includes Thai, Polish, Turkish, Greek, vegan, gluten-free, Paleo, & Jamaican to name a few, as well as carefully selected artists, bakers, & meat vendors to ensure there is something for everyone. And, while we have a fantastic core group of full-time vendors, be sure to keep your eye out for the part-timers who come in on rotating schedules, bringing even more variety to

**Where Communities, Farmers and Artisans Come Together**

our mid-sized market.

On that note, I'd like to give kudos to our hardworking vendors, who show up rain or shine. These folks put incredible amounts of time and love into their small businesses, and are the heartbeat of Edmonton's fabulous market scene.

Once again, the Sprouts program has been enormously popular, with over 300 kids signing in on some days! This increase in participation has more children eating local fruits and vegetables in our community. Along with a token worth \$2 (every market!) that allows our Sprouts to shop for their own fruit & veggies, every family receives a new, kid-friendly recipe each week

that features local produce and items from vendors all around the market. Children aged 4-12 can sign up right until the last day of the season, so it's not too late to join! This program is entirely funded by sponsors (often Community Leagues/organizations and local businesses), and we are incredibly grateful for their generosity.

We would like to give a shout-out to our volunteers, who generously donate their time to keep the market running smoothly. They help us set up, clean up and perform a variety of tasks during market hours that make the market the fun, vibrant community gathering place we all love. We are always

looking for volunteers; please visit [www.swefm.ca](http://www.swefm.ca) or visit us at the Info Tent for a chat and more information (students: it is not too early to begin thinking about volunteering next season as well!).

Lastly, THANK YOU, Southwest Edmonton, and everyone else who makes the trip to join us at the SWEFM every Wednesday during our season. Our market is a true community initiative, and the SWEFM belongs to the people. Your loyalty has made our market one of the best in the city!

The SWEFM runs Wednesdays until Oct. 4th, from 4 to 7:30pm in the Terwillegar Rec Center parking lot.

## What is Sprouts?

By Sheri Hendsbee  
(Sprouts Volunteer, SWEFM)

Sprouts is a popular children's nutrition program at the Southwest Edmonton Farmers' Market (SWEFM). Designed to introduce children to basic nutritional concepts, it encourages families to cook and eat together, helps children develop an understanding of what it means to eat seasonally and introduces them to unfamiliar fruits and vegetables.

A farmers' market is a tremendous environment for learning, where children can talk to farmers about where their food comes from and how it's grown and interact with nutrition volunteers who are passionate about their food and fascinated with the science behind it, all in

a safe community environment.

Thanks to the generous financial sponsorship of community-minded businesses and community leagues, it is a FREE program, open to all children, ages four to twelve. To participate, your child needs to check in at the Sprouts table at the information tent each week and pick up a wooden Sprouts token and a recipe. Each token is worth \$2 toward the purchase of fruits, vegetables and food plants.

Weekly recipes have Nutrition Tips, Sprouting Chef's Tips that explain very basic cooking concepts to children who are just starting out their adventures in the kitchen, and Creative Cook's Tips that teach children to swap ingredients, experiment with some of the weird and wonderful fruits and veggies found at a

farmers' market, or step up the complexity of a recipe. In this way, the recipes make nutritional learning fun and accessible to all children, no matter what their interest or ability level.

Sprouts has your back as you try to raise your children in nutritionally mindful ways! It provides opportunities for your children to learn to cook and to talk to other adults about their

food and the choices they are making. In short, it reinforces the lessons that you are trying to impart to help them live healthy lives. Our hope is that Sprouts goes a long way toward making cooking at home a fun adventure filled with great tasting food, exploration, experimentation, and fun-filled learning.

## REALTOR® Truth Bombs – What Sellers Might Need to Hear!

By Sajida Pellegrini,  
Realty Executives Vision,  
Associate

As REALTORS®, we sometimes have to deliver information that our clients may not like to hear, but as professionals it our job is to be open and honest with our clients, even though it may make us a wee bit uncomfortable. Here are some of the more common topics we have to discuss with sellers in order to set them up for success in the market place.

1. Your house doesn't show well. A recent study found that a prospective buyer will make their mind up about purchasing a home within 60 seconds of entering it. If you can make this first impression a positive one, you can dramatically improve your chances for a sale. Making your home look clean and well-cared for is important, but so is de-cluttering. Buyers want to envision living in your space, so remove all those personal photos and pack up those Knick knacks. Remember your home is not the only one they will see with their limited time, therefore don't let "things" distract them from seeing

the true beauty of your space.

2. Your Price expectations are too high - Once you have made the decision to sell, choosing the price is the most important decision you will make. Put simply, your asking price will determine whether or not your home sells. Buyers usually have options so if they look at your home then chances are they will be looking at other homes in the area that are very similar to yours. Buyers will carefully "shop around". If they find a similar home that costs less, then they would have no reason to pay more for yours. This is why it is critical to understand current market conditions when deciding how to price your home. If you price too high, your home won't sell, no matter how well it is advertised (remember – buyers shop around!). But you also don't want to price too low either. Sure, your home will probably sell but you could be giving up some serious money. This is where your REALTOR'S advice becomes invaluable. They will be able to explain all the variables that impact home prices and give you information about homes like yours that have actually sold. With this information, they can help you arrive at a pricing strategy that

works for you. Once again, it may not be what you want to hear but it's our job as REALTORS to give you accurate information.

3. How Commissions Work - Many REALTORS get paid by way of a commission that comes from the proceeds of the sale. This means the amount that your REALTOR gets paid is deducted from the money you get when your home sells. There is no standard commission rate that applies to the industry as a whole but some brokerages may set commission policies that apply to their associates. For example, some brokerages may set commission rates, while others may allow individual associates to negotiate their commissions. A typical rate in the Edmonton region is the "7 and 3" formula. This is 7% of the first \$100,000 and 3% of the balance which is typically split between the buying and selling agents. Here is how it breaks down on a property that sells for the price of \$400,000.

7% of \$100,000 =	\$7,000
3% of \$300,000 =	\$9,000
Total =	\$16,000
Each agent would receive	\$8000

It can be uncomfortable for

REALTORS and their clients to talk about fees, but it's an important topic for both parties. Professionals should get paid for their services, but their clients should clearly understand the fees they are being asked to pay. This includes any fees to be paid to buyer's agents.

4. There are other costs associated with selling a property

It's not just commissions that you have to think about. There may be other fees or expenses that come up, including:

- Legal fees (to process the property transfer)
- Fees for condo documents
- Adjustment costs (to properly apportion things like taxes and utilities)
- Mortgage payout costs
- Expenses for a real property report or title insurance
- Moving costs

Not all of these will apply but it is important to understand that there will very likely be some out of pocket costs to you when you sell your home. Nobody likes being told to fork over money but your REALTOR can walk you through all of these potential expenses.

# Community Summer Carnival a BIG Hit!

By Monte Weber  
President,  
Terwillegar Community League

This year's Summer Carnival was by far the largest carnival we have hosted since its inception 7 years ago.

Lots of different attractions with more and more local businesses supporting the event. Thank you to our small but mighty volunteer crew who spend the entire volunteering and getting their family involved in all the fun. In addition to being a great time, the carnival was able to raise over \$7k for the development of the South Terwillegar Park.

## SouthWest Seniors Association (SWESA) Offering Peace of Mind and Convenience to Southwest Seniors

### Canada's Birthday:

Being the age we are as seniors, we can remember the year 1967, when we celebrated Canada's Centennial birthday. Now, here we are celebrating the 150th year. In 1967, most of us were just beginning to contribute to society – getting married, finishing our education, and starting a career.

In these past 50 years, we've experienced rapid changes – TV, computers/internet, cell phones/wireless, electronic banking/credit cards, energy options, globalization, space travel, and medical advances. Our generation enabled this plethora of change through our visions, dreams, and hard work. It is indeed time to celebrate Canada's sesquicentennial birthday.

SWESA celebrated this 150th birthday with our sold-out luncheon in the Yellowbird Hall. Participants were decked out in Canada's colours of red and white and feasted on burgers and hot dogs. When we joined in singing our national anthem, it was with pride for this wonderful nation of ours.

*I thought that spring must last forevermore;  
For I was young and loved, and it was May.  
Vera Brittain, May Morning*

We can also participate in the Edmonton Public Library's Canada 150 Digital Storytelling Project, which calls on us to reflect and preserve the stories from the past 150 years. EPL has received funding to build digital storytelling kits. With the help of library staff, we will connect with one another and share our stories that will contribute to forming the foundation of a collection of Edmonton's stories that can be saved and shared for years to come. For more details, visit: <http://www.epl.ca/canada150/>.

When: Thursday, from 10:30 am – 12:00 pm (August 31)

Location: Yellowbird East Community Centre

Cost: Member \$5/season;  
Non-member \$10/season  
Registration is required.

### Summer Programs:

SWESA has many great programs that are running over the summer, and we encourage you to look at the list at <http://swedmontseniors.ca/events-programs/other-events/> There are toonie talks, field trips, fitness options (including Golden Gloves boxing), art group, social lunches, and much more.

SWESA members enjoyed the Edmonton Streetcar Tour by riding the historic 1957 Melbourne streetcar that was gifted to the Edmonton Radial Railway Society by Victoria, Australia. The volunteer conductor gave us information about the sights as we travelled along the tracks. The pathway included the first streetcar station. He shared the history of getting around from Fort Edmonton Park to Saskatchewan drive and up Fort Hill. What a great way to spend the evening with fellow SWESA members while we enjoyed the scenic view from the High level bridge.

### Welcome to New Members:

Many of our SWESA members have moved to Edmonton to be closer to family or to medical services that they may not receive in a rural community. At SWESA it is easy to make friends and discover new things whether you are new to town or are now just getting the time to rediscover our city.

### Seniors Home Support:

SWESA acts as a Seniors Home Support hub, with Barb Newell coordinating the services for our community. Daniel, one of the service providers shares some thoughts.

'Clients have called for a small job to replace burned out light bulbs on the main level. The fixtures were then cleaned and reinstalled. The senior started thinking about different jobs and asked if they could be solved, such as water not falling into gutter, outside gate not opening and closing, holes in the drywall due to plugs (fill and add touch up paint), paint the windowsill scratched due to animals looking out the window (resurface, repaint) hang IV on stand. It is a please to assure safety of a senior.'

## Celebrating Canada's 150th Birthday!

*By Monte Weber  
President, Terwillegar  
Community League*

Families, neighbours and friends alike joined in to celebrate Canada's 150th birthday at Tomlinson Park.

The event ran from 11:00 - 3:00 and thanks to the weather cooperating, the day featured games for the kids, bouncy castles, face painting, food trucks and fun for everyone.

The Grand Canada Day parade did not disappoint. Participants competed for the grand prize for the best national pride entry, the silliest ensemble, and most creative canuck.

## Halloween Fireworks Are Back!

By Monte Weber  
President, Terwillegar  
Community League

Annual Halloween fireworks will be back again this year. Make sure you plan your trick or treating route carefully so you end up at

Tomlinson Park before 8 p.m.

We know this is the perfect way to end the evening with friendly ghouls filling the park to take in the fireworks display.

Please remember, if you plan

to drive and park in the area to give yourself enough time. Homes that surround the park itself are visited by hundreds of children anxiously trying to fill their treat bags. Be patient and don't forget to be kind to your neighbours.

It is a very busy evening and we would like to see very enjoy the evening and all that it has to offer.

We would love to hear what is going on in the community.
